

When you get your test results back from Candice, make note of the Frequency Channel Information and draft your request for a custom program as below:

	A	B	C
1			Name: Make
2	Frequency Channel	Condition	Positive Reading
3	601	Hookworm	YES
4	609	Strongyloides	YES
5			
6			

Hello Kevin,

I would like to request a custom program for my Healy that includes the following frequencies:

Rife Program 601 for Hookworms
Rife Program 609 for Strongyloides

My TAN (therapist access number) from my Healy is...

757-253-675

I have sent you 30 GBP via Paypal.

Please let me know when it's ready.

Thanks,

Sherri

How to get your Healy TAN for Kevin...

Time Waver Therapists, Custom Programs

Watch my video below for a few minutes to learn how to retrieve your TAN (number) from your Healy App.

It will start at 7:35 in the right place with the link below. Just get your Healy app open and click the "expert area" icon near the bottom of the screen and watch this...

<https://youtu.be/Cfzfpfl-jnl?t=455>

Your TimeWaver therapist will need this number to send your program to your Healy.

Here is Kevin's contact info:

Kevin Witcher (TimeWaver London)

Connect on Facebook or email him

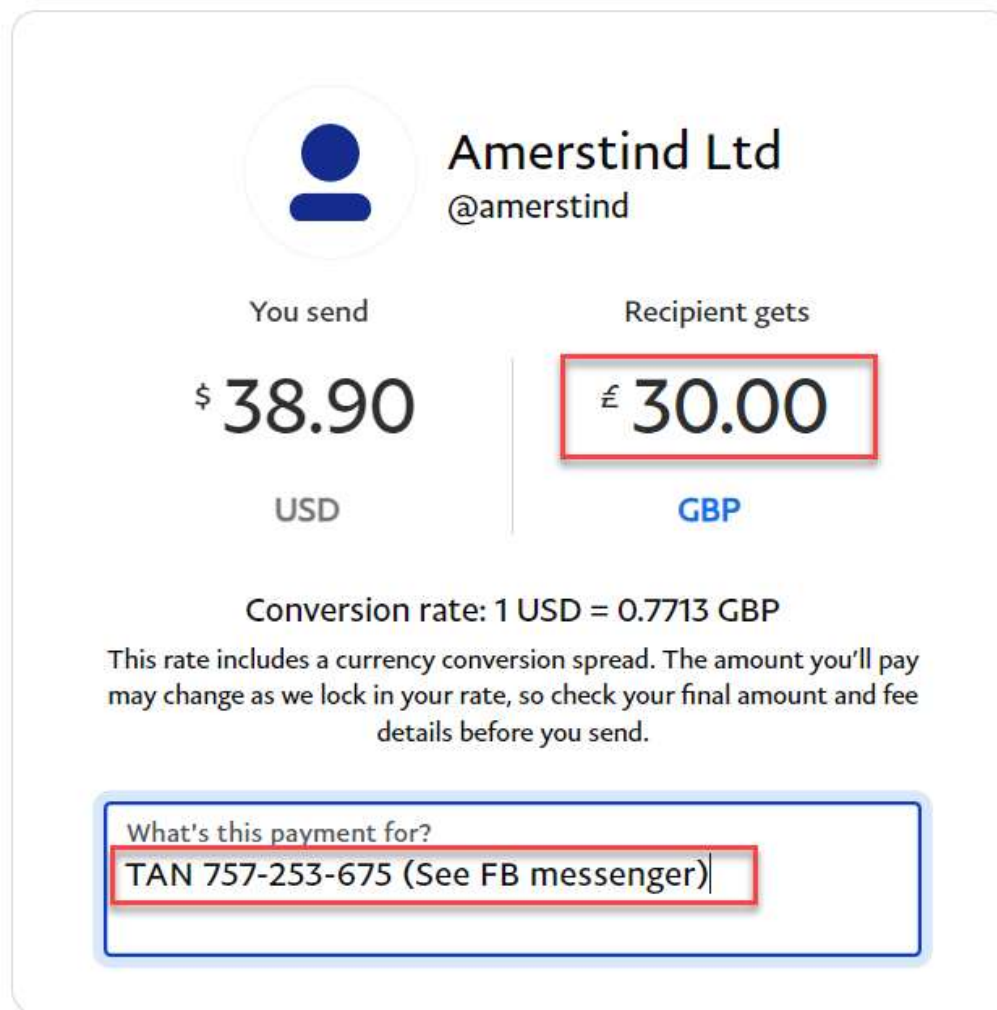

<https://www.facebook.com/profile.php?id=100014033021965>

timewaverlondon2@gmail.com

I just pay him through paypal (30 GBP which is typically around 40USD per program)

<https://www.paypal.com/paypalme/amerstind/>

I use Kevin's PayPal link in the previous slide and pay him 30 GBP and fill in the notes at the bottom and pay with a credit card. You don't have to have a PayPal account to do this. After I make payment I typically connect with Kevin over Facebook Messenger but email is fine too. Below, type 30.00 in the GBP field and it will calculate the USD or CAN amount. The amount you see on the left side (like \$38.90) will fluctuate based on foreign currency exchange rates at the time.

The screenshot shows a PayPal payment interface for a recipient named Amerstind Ltd (@amerstind). It displays the amount being sent in USD (\$38.90) and the amount received in GBP (£30.00). A conversion rate of 1 USD = 0.7713 GBP is shown. A note explains that the rate includes a currency conversion spread and that the final amount may change. At the bottom, there is a text input field for the payment purpose, which contains the text "TAN 757-253-675 (See FB messenger)".

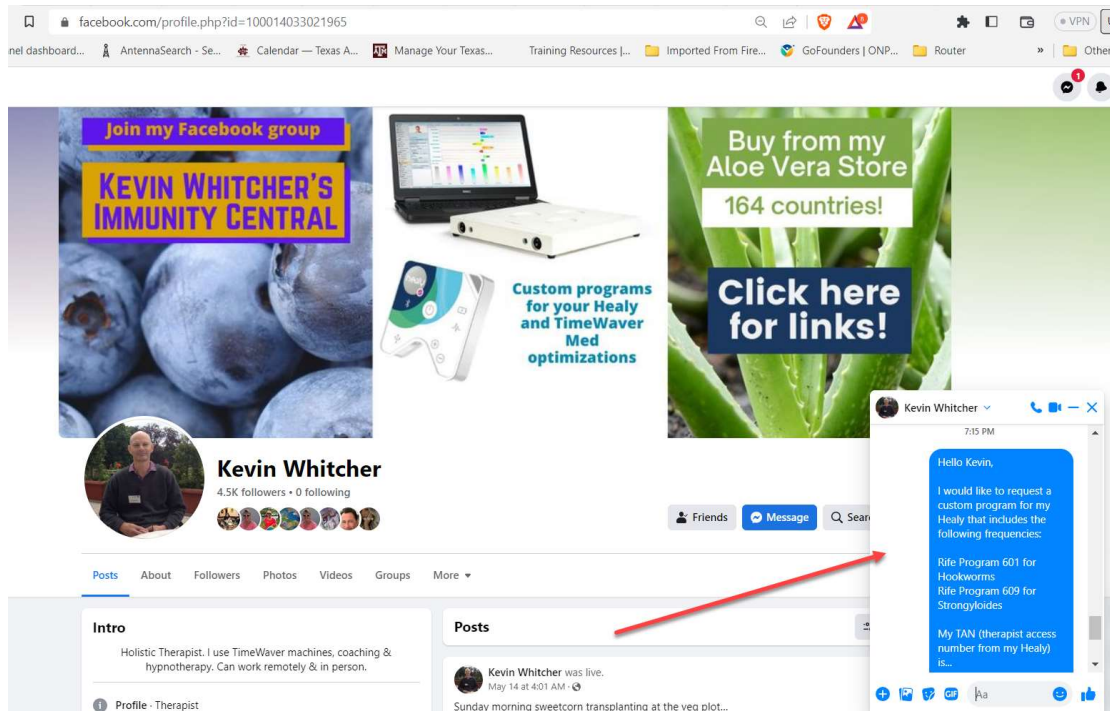

Label	Amount	Currency
You send	\$ 38.90	USD
Recipient gets	£ 30.00	GBP

Conversion rate: 1 USD = 0.7713 GBP

This rate includes a currency conversion spread. The amount you'll pay may change as we lock in your rate, so check your final amount and fee details before you send.

What's this payment for?
TAN 757-253-675 (See FB messenger)

After paying Kevin, I typically message him with the request on Facebook Messenger but you can email him as well. I just pasted in the text I prepared earlier.

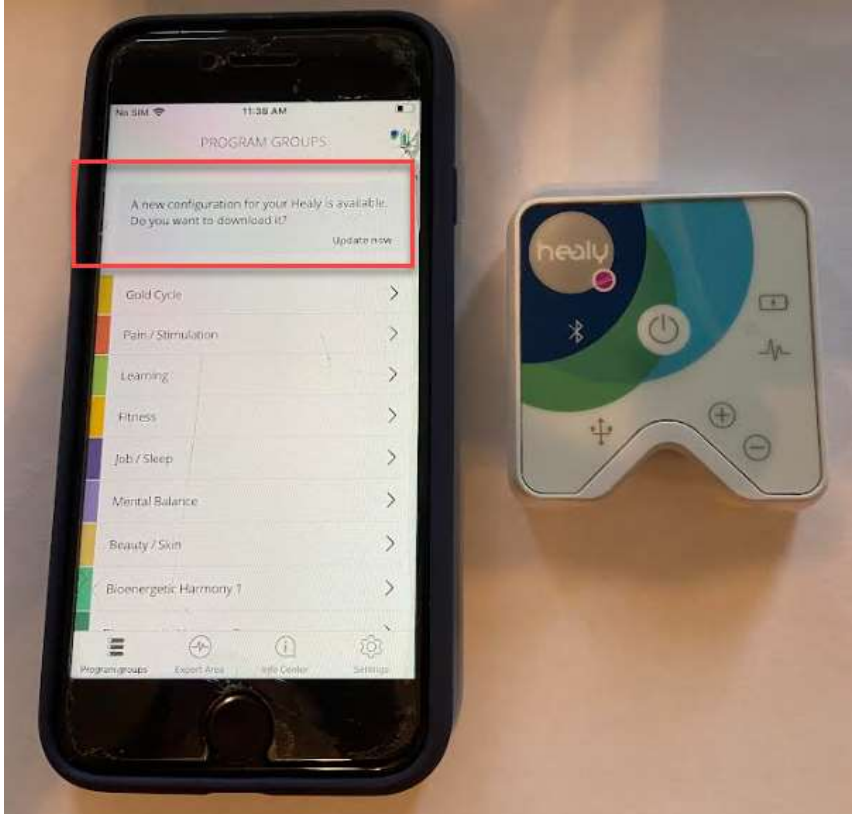

He will respond when he's finished:

Ok the transfer is done with set frequencies derived from Rife - you will get them all when you run the program. Post-update it will appear on your Healy as
04 HK ST 23-05-25
HK ST - Hookworms
Strongyloids

Thank you!

After your program is created, and you receive notification, the next time you open your Healy app (and you have an internet/wifi connection, there will be a light blue banner at the top of your program list. Click "Update Now". Then you'll see "Update completed". Click OK. Then click the icon on the bottom menu for "Expert Area" and you'll see your new program. If you have multiple programs like I do, please keep track of what you asked Kevin for and the name he assigned to the program and the date. He has to name them with short (almost cryptic) names.

04 HK ST 23-05-25 (This was for "hookworms and strongyloides")
